NATUREBEAD COCOA C20 & NATURESCRUB COCOA C50

ALL NATURAL BROWN EXFOLIANTS FROM CARNAUBA WAX

BIODEGRADABLE | SUSTAINABLY SOURCED

Copernicia cerifera (Carnauba) wax, sourced from the carnauba palm in the north-eastern Brazilian savannas, are harvested as a natural brown material. These single component scrubs are ideal for providing exfoliation and creating unique visual effects in various types of personal care products.

- Rich natural brown color with no added pigment or dyes
- Available in:
 - spherical shape for gentle exfoliation and visual cue
 - irregular shape for a more aggressive effect

Worldwide approval
